

ClicSeal Pour Lids Non-Mixing

Gallon/3.5L Pour Lid

Quart/1 L Pour Lid

Half Liter Pour Lid

ClicSeal lids are available without a paddle for use with waterborne paints that do not require mixing.

Its revolutionary clip design removed the lock feet and eliminated potential scratching of the inner liner on waterborne cans.

Designed with the same precision pouring spout and plastic closure blade used with all Dedoes mixing lids.

Our gasket design seals on the inner chime of the can and drastically reducing solvent and water evaporation by having fewer openings in the lid.

All Dedoes lids are sold in quantities of six and are all roughly 0.5 kg (1 lb) each.
