

Blending Table Parts List

Not all tables are supplied with the drawer, stainless steel cover, column, and or viewer shelf.
These are optional components.

The Drawer is an available option for the large tables only.
The edge with multiple holes is designed to be the back of the table.
The drawer should be installed from the front side.

Blending Table Assembly Instructions

Caution: Gloves must be worn during assembly because some edges may be sharp.

Large Table Assembly - 94cm (37in) Wide

- Place the plastic feet on each of the legs.
 - Attach the legs to the top shelf using the P# P0372 bolts and P# P0020 nuts. See Figure 1.
- Ensure that the legs are attached onto the inside of each corner of the top shelf.
- Slide the bottom shelf into the lances on the legs, and then tighten all bolts.

Optional Accessories Assembly:

- **Stainless Steel Overlay** - Place the P# 7990U large overlay onto the top shelf after the table has been assembled.
 - **Drawer- DEDOES P# 830000** - See Figure 2. Slide the drawer onto the P# C00084X hangers.
- The P# P0018 drawer stops must be located toward the front of the table underneath the top shelf in order for the drawer to function properly.
- **Drawer Stop Installation** (included within every large table hardware bag)
 - Install the P# P0018 drawer stops without the drawer in place.
 - Pinch the flared ends of the drawer stop and insert this end into the large rectangular hole nearest the front of the table.
 - Rotate the flared ends into the smaller rectangular hole and release them.
 - Once the stops are installed into the hangers the P# 833000 drawer should slide into place and then not pull all the way back out.
 - **Viewer - DEDOES P# 830002** - See figure 3. The P# P0019 viewer column can be attached to either side of the table using two P# 7152 U-bolts and four P# P0020 wing nuts. Once the column is secured, slide the tube on the P# 7996X viewer shelf over the column. Ensure that the wing nuts are tightened to prevent the viewer and column from slipping.v

Figure 2

Mini Table Assembly - 53cm (21in) Wide

- Place the plastic feet on each of the legs.
- Attach the legs to the top shelf using the P# P0372 bolts and P# P0020 nuts. See Figure 1 above. Ensure that the legs are attached onto the inside of each corner of the top shelf.
- Slide the bottom shelf into the lances on the legs, and then tighten all bolts.

Optional Accessories Assembly: (Mini Tables are not supplied with drawers.)

- **Stainless Steel Overlay** - Place the P# 7991U mini overlay onto the top shelf after the table has been assembled.
- **Viewer - DEDOES P# 830002** - See figure 3. The P# P0019 viewer column can be attached to either side of the table using two P# 7152 U-bolts and four P# P0020 wing nuts. Once the column is secured, slide the tube on the P# 7996X viewer shelf over the column. Ensure that the wing nuts are tightened to prevent the viewer and column from slipping.
